Company Information

Custom Compounders Inc. is a formulator/manufacturer of chemical cleaning products Chartered in the State of Missouri since 1980. While providing cleaning formulations for many industries we specialize in "EPA Safer Choice" Approved Formulations for Maritime, Automotive, Airline, and Machining operations under our USPTO Trademarked "L-44®" brand. All L-44® products offer cornerstones for Safety, Credibility, and Performance.

Bob Jaudon has been a formulation designer since 1971, and acquired Custom Compounders, Inc. in 1980. Focusing on chemical safety, joined the EPA in 2007 in their "Safer Choice" Program and received approval for formulations under an established stringent criterion. Custom Compounders Inc. was awarded a "Recognized Partnership Agreement" for our "L-44® ECD Degreaser" in December of 2009.

Products

- L-44® ECD Degreaser - Our Initial and Cornerstone EPA Certified Product
- L-44® ECDB Degreaser - A Blue Colored Version of L-44® ECD
- L-44® OSD Degreaser – EPA Approved for Environmental Direct Release.
- Our services include metered dilutions for all products to maximize performance and insure best economies of use.

Core Competencies

- On-Site Evaluations for cleaning and degreasing efficiency.
- Demonstration of EPA approved products.
- Establish metered dilutions to maximize performance and economics of use.
- Continued follow-up to ensure continued performance.

Differentiators

- **MB Research In-Vivo Ocular Study**
(only mildly irritating to the eye)
Results: Tested, Confirmed, and Approved
- **USPTO Trademarked** "L-44®" brand.
- **Exclusively available** through Custom Compounders Inc. and select distributors.
- **EPA Approved** for Environmental Direct Release
